

What to do:

Cut the two pieces of this postcard out (you might like to photocopy it first). Stick the front and back on a piece of card the same size. Fill in the back with the details of who you are, and your pledge to help with climate change. Decide who you want to send your message too – maybe your local MP, your local/regional council, or a local business – and write in their postal address. Pop on a stamp on it, and send it away.

You can report on your pledge, and who you've sent your postcard to, and why, at kcc.org.nz/kcc-reporters.

Climate change is a problem for everyone.

My name is _____

I'm _____ years old.

I'm giving a hand to nature by...

You have a whole company/country to run – you can make a big difference!

What are you going to do?
