

# Build the biggest moa

Model  
the moa  
on the moa  
nunui

An adult female South Island giant moa is the tallest bird ever recorded!

What's the biggest moa you can build?

Any building technique will do, but to give you some ideas you could...

## Tape-a-moa

Roll up and tape newspapers to create your moa.

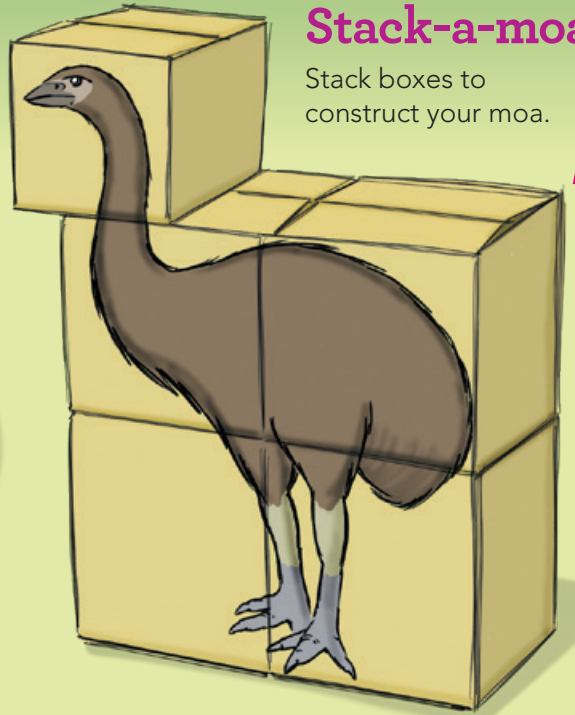

## Stuff-a-moa

Draw your moa on a large sheet of paper, staple the edges, and stuff with filling.

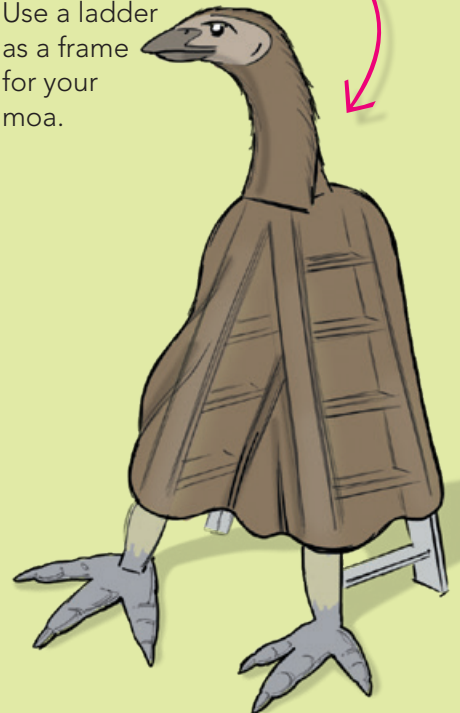

## Stack-a-moa

Stack boxes to construct your moa.

## Ladder-a-moa

Use a ladder as a frame for your moa.

Send in a photo of your mahi to [kccinbox@forestandbird.org.nz](mailto:kccinbox@forestandbird.org.nz) – with evidence of how big your moa is – and be in the draw to win a mystery moa prize!
