

Make a Cat Scrunchie (Anti-Predation Collar)

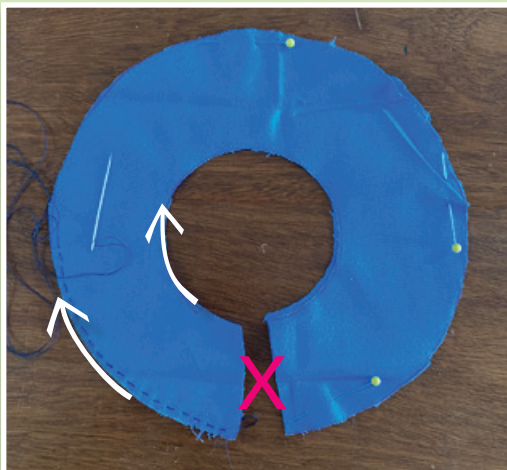

Here's another way to make your cat more conservation-friendly – make it a cat scrunchie! Birds look out for bright colours and patterns, as well as strange noises.

You'll need:

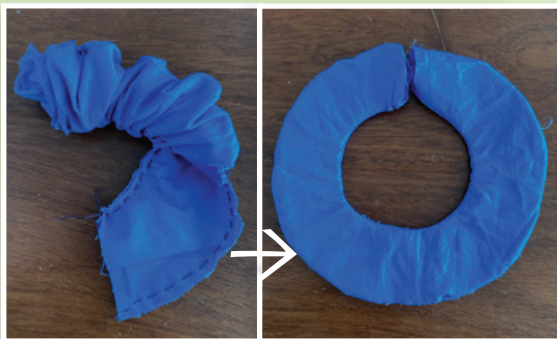

- Two pieces of bright fabric (about 25cm by 25cm)
- Scissors
- Side dish (diameter about 19cm)
- Small lid (diameter about 7.5cm)
- Pen
- Sewing pins
- Needle and thread or sewing machine
- Cat collar with bell.

Step 1 2 3 Put your two pieces of fabric down on a table, wrong side out. Trace around the dish, then trace around the lid. Cut out the scrunchie pieces.

Step 4 Sew around the outside, and then sew around the inside. Use a running stitch. Don't sew up the ends.

Step 5 Turn the scrunchie in the right way, so the bright side of the material is now facing out.

Step 6 Thread your cat's collar through the cat scrunchie. Attach bell.

Step 7 Put it on your cat.
